We feel your pain. Carrying several bags at the farmers market cuts into your fingers, leads to dropped bags and is just a hassle. But the Bagglers, with its three sturdy hooks and soft rubber grip, lets you carry several bags with ease and keeps your purchases from spilling out when you set them down. The handle is \$4.99 and available in several colors; a set of three washable bags (comes with a neat storage pouch) is \$9.99; buy them at www.thebaggler.com.
